### **DETAILED ACTION**

The claims 1-30, 32 are pending in the instant office action.

#### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-9, drawn to method of fostering somatic competence in plant using pro-embryogenic arabinosylated (AGP) protein comprising SEQ ID NO: 25.

Group II, claims 1-8, 10, drawn to method of fostering somatic competence in plant using AGP protein comprising SEQ ID NO: 26.

Group III, claims 11-19, drawn to method of regenerating plant using AGP protein comprising SEQ ID NO: 25.

Group IV, claims 11-17, 20, drawn to method of regenerating plant using AGP protein comprising SEQ ID NO: 26.

Group V, claims 21-25, 27, drawn to AGP protein comprising SEQ ID NO: 25.

Group VI, claims 21-23, 26, drawn to AGP protein comprising SEQ ID NO: 26.

Group VII, claims 29-30, 32, drawn to production of AGP protein comprising SEQ ID NO: 25

Group VIII, claims 29-30, 32, drawn to production of AGP protein comprising SEQ ID NO: 26

The inventions listed in Groups I-VIII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The technical feature linking group I-VIII, AGP protein, does not constitute a "special technical feature" as defined by PCT Rule 13.2, because it does not claim a feature which defines a contribution over the prior art as AGP protein is taught Chapman et al. (planta 2000, 211, 305-314, from IDS).

4. In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
